AI the more you use it the more creative it becomes, the less truth is in the responses. Discussing AI and its implications for the legal profession can be both informative and engaging. Join us for a lively and educational discussion on AI for attorneys: a concise overview of what AI is and how it works. Explaining the concept of machine learning and how AI systems learn from data to make predictions or decisions. AI is a tool that can assist attorneys in various tasks, we will discuss specific use cases of AI in the legal field, such as legal research, contract analysis, eDiscovery, due diligence, and predictive analytics. Highlighting how AI can increase efficiency, reduce manual workloads, and provide insights. Diving into the topic of bias in AI. Biases can be unintentionally introduced into AI systems due to biased training data, examples of bias in AI systems, such as biased facial recognition algorithms. Will lead to a discussion about the importance of addressing bias to ensure fairness and equity.
